

Your new business venture

About you...

- An exciting time!
- A time for careful planning!
- A time to be absolutely sure you're not kidding yourself about anything! About your business...
- Customers!, customers!, customers! Can you explain who they are and why they are going to be bashing your door down to get your stuff? (see kidding yourself above)
-

- Imagine standing over a garden shredder dropping £10 notes in from a large pile at your side. Thats daily life, running a business. If you haven't got customers topping up the pile faster than you are shredding it, you're fired!

What to do

Give us a ring on 0117 942 2367 or send an email from the contact page. We have an open plan office with retail frontage at 182 Gloucester Road so you can also just pop in and make an appointment. The important thing is that everybody and every business is different. This is why a proper chat over coffee will enable you to see if we are right for you and your business.

Lets see what we offer for the basic business types...
