 -

 - NHS247 listed supplier, discounts and fixed prices for surgeries, Dentists, GPs and other doctors and all NHS contract healthworkers and staff.
- In short, if you are looking for qualified experienced accountants at reasonable rates, you have come to the right place.

We aim to offer a comprehensive service covering all the accounting needs that the average individual or owner of a small business will need.

Personnel and Personal! Kate, our MD has grown this practice from 1 to nearly 300 clients, since 2006. Qualified with and a member of the AAT having undertaken their three year accountancy course, she is highly experienced and has worked with technical accounting in large and small businesses for over twenty years.

John is our highly valued AAT qualified accountant, the man with the fastest spreadsheet in the west! Kate and I have been so impressed that we are funding his route through to becoming Chartered with ACCA. Nuff said.

Bozena is a qualified accountant in her native Poland and looks after our Polish client base of over 200 individuals and

companies.

We are also ably assisted by Yvonne, highly qualified in accountancy in her native Australia. Nothing gets past her razor sharp, eagle eye for detail!

I am Clint and I am our IT director. In the past, most of us have worked outside as well as inside accountants practices, including two significant spells in construction company accounts offices. We believe this gives us a fuller perspective and understanding of our clients own companies and needs.
