

Polish in Bristol

Our accountant Kate (Kasia to you!) is Polish by birth but has been in the UK for more than 25 years. Benefit from her lifetime experience with accounts in the UK but speak in Polish and have Kate read and understand any Polish documents without translation problems. Read this in Polish. Przeczytaj to po polsku.

You have a unique opportunity in Bristol to deal with a Polish speaking accountant in the processing of your UK tax and accountancy needs. We know of no other professional accountant in the Bristol area that grew up in Poland but has spent their career of more than 25 years dealing with accounts in the UK. Kasia is a member of the AAT, one of the leading UK professional bodies for accountants.

Whilst you are living and working in the UK you will come under the influence of the UK tax system, whether you plan to return or to stay here permanently. At Discountants we are here to help you make sure that you do not pay too much tax or worse still, pay too much tax when you get back home to Poland. The Polish tax situation is more complex than the UK and changes more quickly. We have direct links with tax consultants in Warsaw so that we can sort out the whole Polish-English tax thing for clients.

If you are self-employed in the UK, have a partnership or limited company, or if you have bought or started a business here then Discountants are the right accountants for you. Even if you get a job as an ordinary employee, there is a possibility that we can get a tax refund for you.

We already have a number of clients, Polish and English, who like us, have interests in both Poland and the UK. Therefore we are also well placed to help English clients with interests in Poland.
